Mayors, Special Guests & Partners:

We hope you can be with us for this truly historic opportunity in Washington. We have a new line-up of partners and stakeholders to bring urgency, capacity, and authority to our efforts for our region.

Our 2020 vision for the corridor is to increase our disaster impact absorption capability—but we need your help to determine where, by how much, and with what resources. We've come a long way meeting our goals for securing resources; but, the next steps are critical.
